My Goals

- To read and answer questions.
- To learn the many ways we can communicate.
- To learn to give to others.

Compassionate

When someone is suffering,
will you meet his need?
When someone is arguing,
will you intercede?
When someone needs
something you know you
can give,
Will you have compassion
so he better can live?

F. Microphones Communicate Sounds

Many, many years ago some people in Spain were able to teach several deaf students to speak. They were also able to teach the students to read and write. In Spain a book was written about teaching the deaf to communicate. People in Germany also did a great work teaching the deaf to communicate.

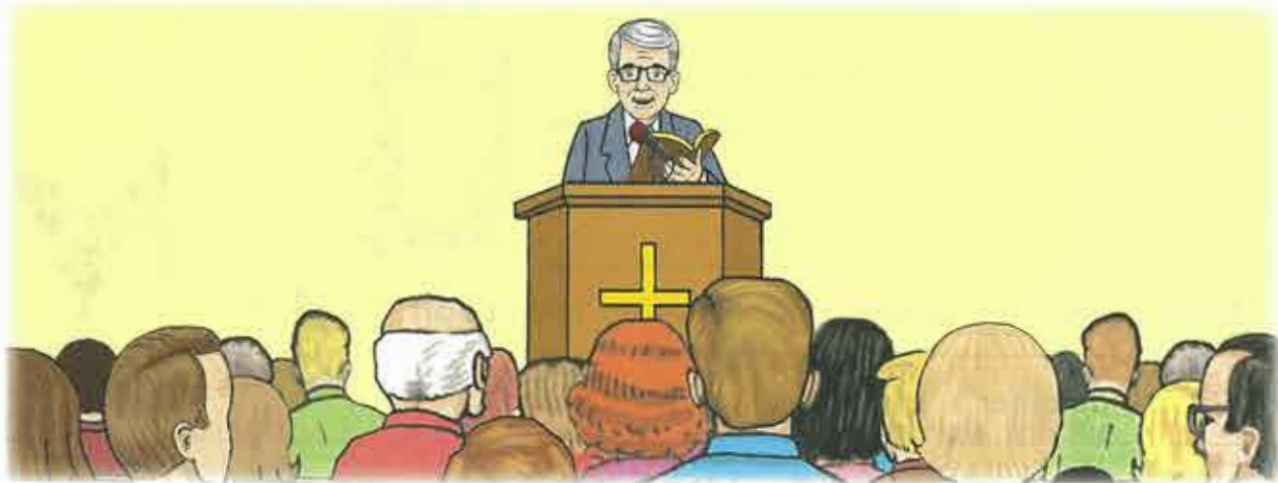

Another country, the United States, learned from the work done in Spain and Germany. Today, many people in the United States teach and work with deaf people.

People who do not hear well will often hear better if they wear a hearing aid. A hearing aid is a little box with a kind of microphone inside. The little microphone in the hearing aid will help a person who does not hear well to hear better. It can help a person who hears very little to hear more. It makes sounds louder and clearer.

Draw a line under the best answer.

- (1) In (Spain, Slain, Stain) several deaf students learned to speak.
- (2) These deaf students learned to read and (see, walk, write) too.
- (3) People in Germany did a great work with the (deaf, leaf, Spain).
- (4) The United (States, Slates, Shakes) works with deaf people.
- (5) Some people can (see, smell, hear) better with hearing aids.
- (6) A hearing aid has a kind of (telephone, microphone, email) inside.
- (7) A hearing aid makes sounds (louder, larger, softer).

 Pastors, speakers, and singers often use microphones. Although we may sit or stand far away from the speaker or singer, we

can still hear well. Microphones pick up sounds and make them loud enough to hear even when we are far away.

Draw a line under the best answer.

(1) Speakers (often, won't, never) use microphones.

(2) We can hear (well, nothing, little) even far away.

(3) Microphones pick up (buildings, toys, sounds).

(4) Microphones help us (hear, here, see) even far away.

J. We Communicate with God

We use words to communicate. We communicate when we speak words aloud, and we also communicate when we write words on a page. We should carefully choose the words we use. We can make others happy or sad with our words.

God carefully chooses His words to us. God communicates through the pages of His Holy Word. We often read aloud from the pages of God's Holy Word. God's words to us are written in

the Holy Bible. When we read the pages of the Holy Bible, God communicates His thoughts to us.

Fill in the blanks with these words.

words His speak happy choose

(1) We use words to communicate.

(2) We communicate when we _____ or write words.

(3) We should carefully _____ the words we use.

(4) Our words can make others _____ or sad.

(5) God communicates to us through _____ Word.

We communicate our thoughts to God when we pray. Sometimes we speak our thoughts and pray aloud to Him. Sometimes we just think our thoughts in prayer and do not say them aloud. God hears us if we pray aloud or if we pray and do not speak aloud.

The Bible says, "Hear, O LORD, when I cry . . . and answer me" (Psalm 27:7). In another place the Bible says, "I will hear what God the LORD will speak" (Psalm 85:8).

We can talk to God about everything. God always hears our prayers.

Pudge, after we have prayer, we want to give you a goodnight-kiss. Then we will go to sleep. We love you very much. God loves you too.

Draw a line under the best answer.

- (1) We communicate our (thoughts, though, the) to God in prayer.
- (2) Sometimes we (tray, gray, pray) aloud to God.
- (3) We also (thing, think, thin) our thoughts in prayer.
- (4) God always (fears, tears, hears) us.
- (5) We can talk to God about (nothing, everything).
- (6) God always hears our (prayers, wants, pays).

Thank You, God, for hearing our prayers.
