About Mathletics

Everything we do is about results.

Our mission is to engage every student every day with a personalised, responsive, intelligent, and challenging learning resource that inspires a delight in mathematics and an innate drive to better results.

Benefits of Mathletics

- Improved results
- Students love Mathletics
- Students are engaged and motivated to learn
- Easy to use
- Students have access to Mathletics 24 hours a day, 7 days a week
- Provides the perfect link between home and school, where results flow seamlessly.

Mathletics is Australia's most used educational website! As an online learning resource, it is the next generation in learning, helping students enjoy Mathematics and improve their results. Mathletics covers the full primary and secondary curriculum.

Developed in Australia, Mathletics is used around the world by schools in New Zealand, UK and Europe, USA, South Africa, China and other Asian countries. Our team of experienced educators, e-learning publishers and developers is dedicated to providing effective learning resources using cutting edge technology.

Mathletics schools automatically have access to the latest developments as they happen, meaning that students, teachers and parents can be confident that they are using the most effective and relevant resource available.

Our implementation team works hand in hand with schools to ensure that Mathletics is successfully integrated into the existing school programme. Each school is given ongoing, individualised training and technical support throughout the school year. Student improvement and results form the basis of all our conversations with schools.

MATHLETICS

"It's a great way to supplement learning at school and for parents to see what their children are capable of and where they might need additional help."

Carol Ross, VIC

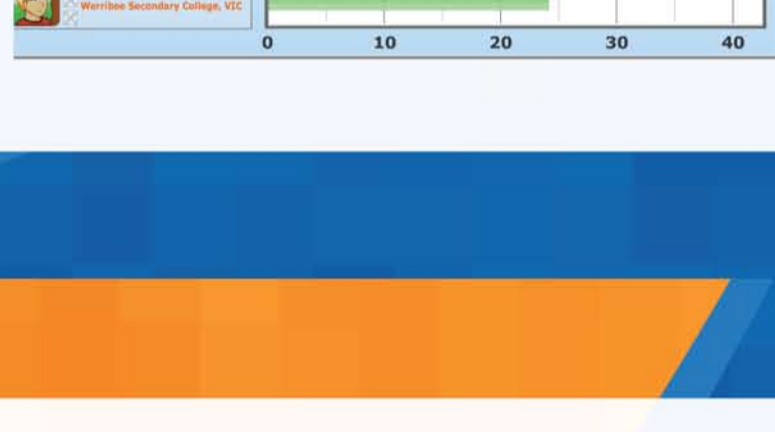

Students Love Mathletics

Mathletics captivates and challenges students in a stimulating, interactive environment.

- Used by more than 40 000 students each day
- Students are motivated and engaged
- Students are able to work through the curriculum at their own pace
- Students are assisted by an on-line support centre
- Live Mathletics fosters a stimulating and exciting on-line learning community
- Hall of Fame and certificates recognise and reward participation and achievement.

Mathletics Improves Results

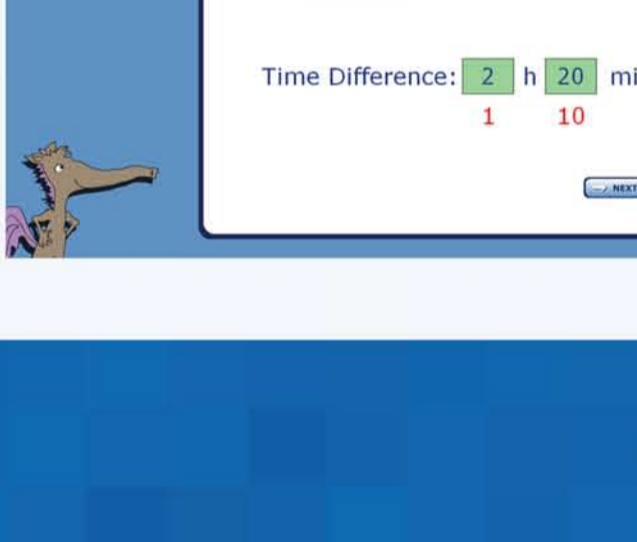

Mathletics motivates students to strive for better results.

- Using Mathletics increases average marks in Maths
- Is fully aligned to Syllabus Outcomes
- Is adaptive; it tailors questions based on the ability of individual students
- Provides immediate feedback to students, teachers and parents
- Visually supports every curriculum concept
- 24 hour access at both home and school.

"To summarize these findings in a single sentence is difficult, but in answer to the original research question, Does Mathletics enhance achievement in mathematics? The answer is demonstrably "Yes"."

Brian Doig, Deakin University
VIC from research paper 'Does Mathletics enhance achievement in mathematics?' 2007/8

Target your teaching to students needing help

Highlights enrichment candidates

"Out of all the Maths programs I've spent money on (there have been quite a few) this is the only program my kids want to go and play. They love earning certificates, and I love the fact that it teaches them to think fast. Which is a skill that has helped them both with school tests."

Cindy Majdak, NSW

MATHLETICS

Australia's most used educational website

Regular Annual Licence

A regular licence is purchased by parents directly over the internet for their individual children. At \$99, this translates to less than \$2 per week. This represents outstanding value particularly when compared to other computer-based Mathematics programs or home tutoring.

\$99/
student

Annual Licences when Purchased Through Schools

An annual licence is available to schools who make a bulk purchase of one or more complete classes. Through bulk purchase, schools are able to access a saving of almost 70% for their students. This entitles your school to free use of the Teacher and Admin Centre which contains Course Creator, Task Manager and Class Markbook. These facilities provide enormous benefits to teachers and maximize the benefit of Mathletics.

\$30/
student

World Maths Day is a unique web-event where students from across the globe unite to answer mental arithmetic problems in a multi-player game environment. Students participate in age specific 60 second challenges.

The event is inclusive and caters for all ability levels across primary and secondary schools. World Maths Day is free for schools and students.

World Maths Day is one of the world's largest global events with over 100 countries represented and is held on the first Wednesday in March each year.

Visit www.worldmathsday.com for more information.
